Lab 2 – Agile Backlog Creation & Sprint Simulation in Jira (Bug tracking)

Name: Nihar Sureshwar Oak

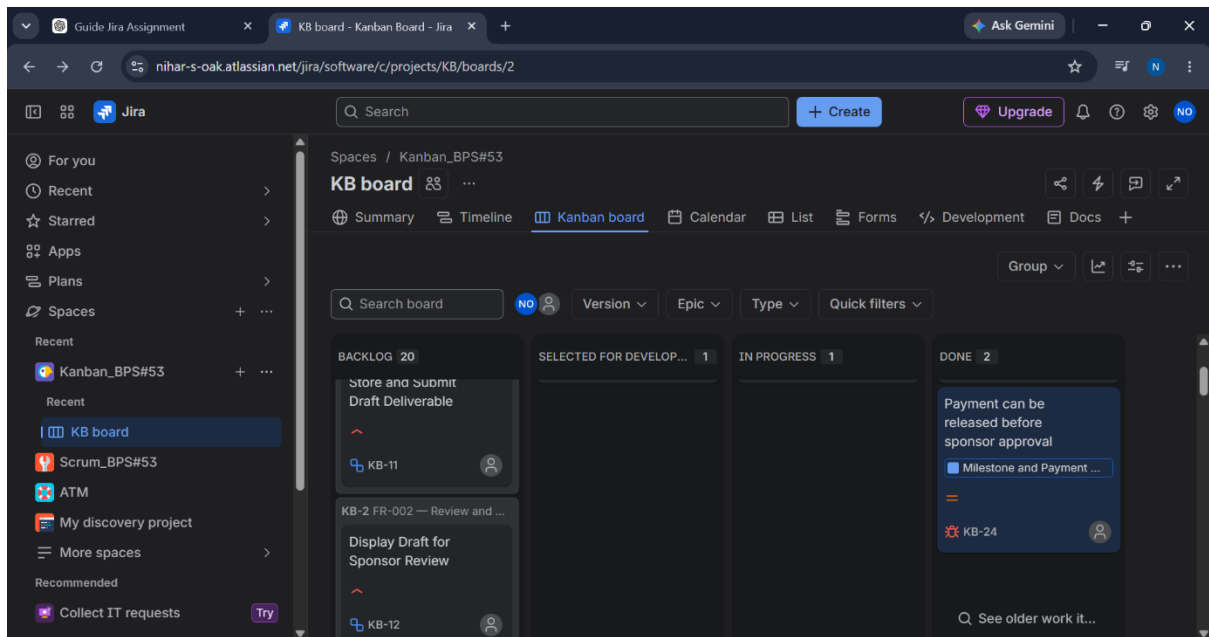

SRN: PES1UG24CS299

Section: E

Screenshot 1: Bug Report Created in the Kanban Project

A bug was created in the existing Kanban project to demonstrate issue tracking. The bug identifies a potential security and payment-control defect where payment could be released before sponsor approval. The issue was recorded with a clear summary and description and assigned the bug ID KB-24.

Screenshot 12: Bug Displayed on the Kanban Board

The created bug **KB-24** is displayed on the Kanban board under the **Done** column. This demonstrates that the bug has been incorporated into the project workflow and can be tracked alongside the other work items.
